

Vicco Labs' launches its Cosmetic Products in EPL's Sustainable Platina Tube Packaging

Vicco laboratories and EPL have jointly worked to convert the turmeric range of products to 100% recyclable packaging by adapting APR, USA approved Platina tubes.

Mumbai, 15th November 2021: EPL Limited, an Indian multi-national company in the business of manufacturing laminated plastic tubes, today announced a major conversion of a leading brand partner Vicco Labs to 100% recyclable packaging. Vicco labs and EPL have jointly worked to convert Vicco's 'Turmeric' range of products to recyclable Platina tubes.

Platina 250, 300 & 350 Lamitubes have been recognized by *Association of Plastic Recyclers (APR), USA* as meeting or exceeding the strict APR HDPE critical guidance criteria on recyclability.

Both Vicco Labs and EPL teams have worked together to do the required testing and ensure quality protocols are met, before the products are launched in the market. Vicco is one of the early movers to recyclable tube format, which is in line

with its vision to convert to recyclable packaging. These set of products have converted Vicco Turmeric Skin Cream, Vicco Turmeric Aloe Vera Skin Cream, Vicco Turmeric WSO Cream and Vicco Turmeric Face Wash range to recyclable packaging. It is now available in Modern Trade, E-Commerce Platforms & Traditional Trade platforms.

During the occasion of this launch **Director of Vicco Labs Pvt Ltd, Mr Deep Pendharkar Said** "We are happy to lead the sustainability agenda and convert to recyclable packaging. This step is a way forward in order to achieve our sustainability commitments. EPL remains our partner of choice for innovative and sustainable tube packaging".

On the occasion of this milestone **EPL's President, AMESA Mr. Deepak Ganjoo said** "We are delighted to partner with Vicco labs in this achievement and help them meet their sustainability commitments. EPL has been leading the pack in sustainable innovations, and we will continue to support leading brands in launching products in recyclable tube packaging. This is in line with our commitment towards sustainable environment."

The Platina tubes, after use, can be recycled in the dominant Code 2 plastic stream used across the globe for recycling milk cans, Juice bottles etc. Platina tubes are not only 100 % recyclable but they also enable reduction in plastic usage through down gauging, helping leading FMCG brands in meeting their sustainability commitments.
